The Bank of Dillon.

WE

ASK
YOU

To examine our statement of condition.

People who intrust their money to a bank should know something of its financial strength.

The annual statement speaks for itself. On its strength we solicit your business.

THE OLD RELIABLE

The Bank of Dillon.

"Facts"

If a man intrusts his money to a bank he should know something of the financial strength of the bank. If this is good business policy, how much more important is it that he should be sure of the financial strength of the Company in which he carries his life insurance.

If a bank fails the depositors usually get their money back, they rely ever loose it, and they can find other good banks in which to deposit their savings. But if a Life Insurance Company fails the policy holders not only lose all they have paid in, but often, on account of accident, or impaired health, they have become uninsurable, and cannot get insurance in any company, and if they do, it will be at a higher cost owing to their advanced age.

Therefore, it is the part of wisdom to choose an old and strong Company, one whose long and successful experience is a guarantee of stability, and of wise and economical management.

Mutual Life Insurance Company of New York

is such a company. Its sixty years of active business has carried it through trying periods of war and pestilence, financial panics, and business depressions as well as through periods of prosperity, and through it all the Mutual Life of New York stands out today, the strongest, and one of the best Life Insurance Companies in the world. The new policies of the company were drawn to comply with the new laws of New York and other States, which were framed solely in interest of the policyholder and are more exacting in safeguarding his rights and equities than any ever before drawn.

If you are thinking of taking out a policy, now or in the future, it will pay you to see me, or drop me a card, and I will take pleasure in explaining the different policy contracts to you.
